

# RN-Led Business Safety Training Services

Saefkow Training Center provides professional, RN-led safety education designed specifically for businesses. Our programs reduce risk, support compliance, and give employees the confidence to act in real emergencies. All trainings are available onsite and tailored to your workplace environment.

## Stop the Bleed® Workplace Training

When minutes matter, your team knows how to save a life.

Uncontrolled bleeding is the leading cause of preventable death after injury. Stop the Bleed® training equips employees with the skills to control life-threatening bleeding until emergency responders arrive.

### What Employees Learn

- How to recognize life-threatening bleeding
- Proper use of tourniquets
- Wound packing and direct pressure techniques
- Scene safety and rapid response principles

### Who This Is For

- Offices and corporate environments
- Manufacturing and industrial facilities
- Warehouses and logistics centers
- Churches, schools, and public-facing businesses

### Why Businesses Choose Us

- RN-led, medically accurate instruction
- Hands-on practice with real equipment
- Training customized to your facility layout
- Completion certificates and documentation provided

**Format:** Onsite | 60–90 minutes

**Group Size:** Up to 15 participants per session

👉 *Ideal as a stand-alone training or bundled with CPR/AED.*
