

# RN-Led Business Safety Training Services

Saefkow Training Center provides professional, RN-led safety education designed specifically for businesses. Our programs reduce risk, support compliance, and give employees the confidence to act in real emergencies. All trainings are available onsite and tailored to your workplace environment.

## Bloodborne Pathogens Training (OSHA-Aligned)

Simple. Compliant. Documented.

Many workplaces are required to provide annual bloodborne pathogens education. Our RN-led training helps businesses meet requirements while keeping content practical and easy to understand.

### Training Covers

- What bloodborne pathogens are
- How exposure occurs in the workplace
- Universal precautions
- Proper use of PPE
- Response to exposure incidents

### Who Needs This Training

- Offices with first aid responders
- Dental and medical practices
- Manufacturing and industrial employers
- Any workplace with potential exposure risk

### Why Businesses Choose Saefkow Training Center

- Clear, non-technical instruction
- Aligned with OSHA standards
- Completion certificates provided
- Ideal for annual compliance requirements

Format: Onsite or group session | 45–60 minutes

👉 *Perfect as a recurring annual training or bundled with CPR/AED.*

## Corporate Training Packages Available
